

Errata

Spatial Point Patterns: Methodology and Applications with R
Baddeley, Rubak and Turner

1. Page 115, line 4 from bottom: the code should read

```
> Y <- eval.im(Z + 10)
```

2. Page 308, Figure 9.3 caption: in the caption for the right panel, the name `code` should be `fit`.
3. Page 535: `temper` should be `rtemper`.
4. Page 786, reference [643]: volume number is **62**.
